

0.00 Digital literacies are an absolutely essential
0:09 component of anyone's preparedness for
0:11 the workplace. It's going beyond just the
0:15 nuts and bolts of how to use a computer
0:17 but is understanding when to use it,
0:20 what's appropriate how to be efficient
0:22 and effective in using the technology,
0:24 making an effective search, knowing how
0:27 to understand search results so that you can pick the best sources from those
0:32 search results. We've got to be able to
0:34 use the technology everywhere to support
0:37 what we do workwise so helping students
0:40 understand how to use the technologies
0:43 understanding the backgrounds of the
0:45 technologies will help prepare them to
0:48 be more productive and efficient,
0:51 effective in the workplace.
